PROFILE

Innovative full-stack developer with a solid background in web development, complemented by over 7 years of experience in audio-visual technology and event management. Skilled in crafting seamless digital experiences, I excel in fast-paced and collaborative environments, combining technical expertise with a strong proficiency in project execution.

EDUCATION

AAS in Web Development
Central Oregon Community College
2021 - Present

- Specialized in web development, focusing on programming languages, networking, and database management.

- Developed project management and communication skills.

Full Stack Development Program
University of Oregon
Completion: In Progress

- Training in full-stack web development, including front-end and back-end technologies.

- Hands-on experience with HTML, CSS, JavaScript, Node.js, React, and SQL.

SKILLS

Web Development Basics: Proficient in HTML, CSS, and JavaScript.

Full-Stack Development: Skilled in using the MERN stack (MongoDB, Express, React, Node.js) for dynamic web applications.

Client-Side Development: Experience in building applications using third-party APIs.

Database Management: Knowledgeable in using MySQL and NoSQL databases.

Agile Methodology: Familiar with Agile development practices.

Team Collaboration: Effective in team-based project delivery.

Problem-Solving: Strong ability in resolving technical issues.

WORK EXPERIENCE

Technical Director
NW Events & Environments | 2016 - Present
- Managed and coordinated AV operations for events, showcasing technical and problem-solving skills.
- Led FOH engineering, ensuring top-quality sound and visuals.
- Oversaw setup and operation of AV equipment, provided technical support.
- Collaborated on event planning and execution, demonstrating project management skills.
